# ARMADILLO

ARMADILLO is a customizable concealment kit for any vehicle or platform in motion. The kit parts are made out of our unique TVC multispectral concealment substance. Enabling the user to blend into the environment without being detected. TVC conceals objects in the Visual, IR and FIR wavelengths.

## SPEC

Dimensions: customizable for any platform  
Weight: 1.9kg, 5.8lbs

## PARTS

- ▷ Various panels according to the platform silhouette
- ▷ Connection to the platform by rapid release elements

## 2-SIDED COLORATION

The TVC can be printed on each side to resemble the coloration of a specific or general AOR. We developed a digitized coloration technique that can generate any color pattern from basic color. This enables us to rapidly develop customizable camouflage patterns.
