

# HOTARU

HOTARU is the world's first multi-spectral  
(Thermal, Infra Red) safety strobe suitable for rescue  
teams, hunters, extreme sports and law enforcement (IFF).  
Smaller, lighter, powerful and affordable.

## OPERATION MODE

Simultaneous Multi-Spectral  
strobe.  
Omni directional.  
Repetition rate: 1 Hz.

## APPLICATIONS

Active strobe applications  
for safety in hunting, hiking,  
trekking and rescue forces.

## FORM FACTOR

The small size and light  
weight makes it ideal for  
head mount, torso, tripod or  
backpack.
