

# ARMADILLO

ARMADILLO is a Custom-made concealment kit for any type of vehicle or platform. The kit parts are constructed from our unique TVC substance to enable the user blending in the environment without being detected. The TVC conceals objects in visual, IR and FIR spectrum.

## SPEC

Dimensions: Custom-made for any type of platform

Weight: 1.9kg, 5.8lbs

## PARTS

- ▷ Various panels according to the platform silhouette
- ▷ Connection to the platform by rapid release elements

## 2-SIDED COLORATION

The Polaris Solutions TVC can be printed on both sides to resemble the coloration of a specific or general AOR. We developed a digitized coloration technique that can generate any color pattern from basic color. This enables us to rapidly develop custom-made camouflage patterns.

## PATTERNS

Light Stone

Dark Stone

Woodland New

Desert
